UTSO Team-

Please find attached update Word versions of the Executive Summary and Data Responses for Grand Staircase National Monument and the supporting documents. (Seriously, their staff is amazing- the breadth of materials collected in such short order is phenomenal.) GSENM is still working diligently on this response, so please be advised that this is just an updated draft and subject to changes.

All supporting documents are located in the DOI's Google Drive folder, but only a few BLMers have access in Drive. Because there are many large files, I'm attaching only a few documents referenced in the response that I think will be of interest to UTSO reviewers.

I believe that Cindy is still waiting on some information from the 5th floor, the grazing program, and review by External Affairs.

I've been at my desk since 5:45 am and am heading home shortly, but wanted UTSO staff members to have an opportunity to see the progress of the document. Please bring any issues to our attention during the conference call tomorrow morning (UTSO folks can gather in Monument Room A).

Thanks!

Regards,

Allison Ginn
